

Welcome to our Vemma team!! We're excited you've joined Vemma and really want this decision to become one of your best ever. We want you to be happier, healthier and richer as a new Vemma Brand Partner! There are lots of exciting things happening at Vemma that we want to share with you.

As you begin to promote your Vemma business, the Vemma Action Plan (Road Map to success) will be a huge resource to help shorten your learning curve. Developed by top Vemma Leaders, this 8-step workbook will help you mentor and train your team to duplicate efforts. We understand there's only one of you, so training your future team via the Internet really accelerates everyone's business.

With the Road Map to Success, you'll get...

- tips and tools to help you define your Why and create a compelling personal story.
- scripts to make it easier for you to present the product and the business opportunity.
- information to move you through the process of hosting your own private business receptions and home meetings.

On page 35 of this book, you will find very important phone numbers and websites. These are the keys to succeeding in this business. I have plugged the phone numbers into my cell phone/calendar and am alerted 15 minutes before the time of the call. No two calls are alike so you learn something new every call. The information will help you when you share the Vemma product. Think of these calls as a mandatory requirement from your boss. Only YOU are the Boss! The brand partners that you introduce to the Vemma Business will do the same. The power of duplication is enormous!

You will want to order some business cards or some brochures. I have included a few that you may want to order. Please note, marketing materials are included in the builder packs. Product at discounted savings and marketing materials are a great way to start your business at considerable savings. I also suggest you make some labels for your brochures. I have included some in this package. If your labels are not in this package, I did not have your Vemma website address. Please email that to me and I will create your labels - cjbrogan@gmail.com .

Please review the enclosed materials. We hope this information is useful and that you will provide one of these packets for any new brand partners that are interested in working this business opportunity.

The first wealth is good health!
To your good health,

Jim and CJ Brogan
